rtStar™ tRNA Pretreatment & First-Strand cDNA Synthesis Kit

[Buy Products](#) [Publications](#) [Manuals](#)

rtStar™ tRNA Pretreatment & First-Strand cDNA Synthesis Kit is designed for reverse transcribing tRNAs efficiently.

Benefits

- Efficient removal of internal modifications of tRNAs to ensure the proceeding of reverse transcriptase during cDNA synthesis, whereas the regular cDNA synthesis method doesn't have.
- Magnitudes of increase in tRNA detection sensitivity and quantification accuracy with the treated compared with untreated samples.

The screenshot shows a website for GO BEYOND RNA ARRAYSTAR INC. At the top, there is a navigation bar with links for Contact Us, 888-416-6343, @arraystarinc, My Account, Logout, and a shopping cart icon showing \$360.00 with a circled '1' (indicated by an orange oval). The main header features the company logo 'GO BEYOND RNA ARRAYSTAR INC' and a search bar. Below the header, there are dropdown menus for Services, Products, Resources, and Company. The breadcrumb navigation shows the user is on the 'Products' page for the 'rtStar™ tRNA Pretreatment & First-Strand cDNA Synthesis Kit'. The main content area features a banner with the text 'tRNA Research Tools' over a background image of tRNA molecules. On the left, there are sections for 'Order Guide' and 'Related Products'. The 'Related Products' section lists 'nrStar™ tRNA PCR Array (H/M)' and 'rtStar™ Pre-designed tRNA Primer Sets (H/M)'. At the bottom, there are buttons for 'Buy Products', 'Publications', and 'Manuals', and a descriptive text box stating: 'rtStar™ tRNA Pretreatment & First-Strand cDNA Synthesis Kit is designed for reverse transcribing tRNAs efficiently.'
